

# TAZ FAN™

**VIVIDAIR™**  
ANYTHING ELSE IS STALE

Variety of mounting and install applications.

Different is cool®

The Z-Tech blades inside TAZ, an industrial, two-directional fan.

**OBSTRUCTED CEILING? TIGHT SPACING? TAZ UTILIZES ALL THE COOLING POWER OF OUR Z-TECH BLADES TO CREATE AN INDUSTRIAL TWO-DIRECTIONAL FAN THAT FITS RIGHT WHERE YOU NEED IT. KEEPING AISLES COOLER THAN EVER, AND SAVING YOU MONEY AT THE SAME TIME.**

## IDEAL FOR

Obstructed ceilings and aisles.  
Replacement for basket fans.

Same heavy duty power and patented blades as our HVLS fans, but optimized for your facility's needs.

Where there's a roof, there's a way.

## 2 STANDARD SIZES

72 in, 36 in

## FEATURES

### COVERAGE AREA

More concentrated airflow patterns than HVLS fans, generating 135 ft of linear cooling coverage and up to 75,200 CFM.

### APPLICATION DIVERSITY

TAZ mounts flat or angled, making it the ideal cooling solution for aisels or mezzanines. Option for singular or multidirectional air movement.

### POWER-SAVING

One TAZ can replace up to 4 panel fans or 8 basket fans, all while using half the power. Our maintenance-free motor ensures a long life for your fan.

### WARRANTY AND SAFETY

Lifetime warranty on blades and mounting system. 3-year warranty on motor and controller. 4 individual hanging anchor points with screens top and bottom.
